Home hoop setup checklist

- [ ] Check local rules and utility lines before digging (in-ground)
- [ ] Rim set to 10 ft (120 in) — measured to the top of the rim
- [ ] Rim level side to side
- [ ] Base filled with water or sand (portable) and weighted
- [ ] All bolts tightened and checked monthly
- [ ] Padding on the pole if children play
- [ ] Net hooks secure, net not tangled
- [ ] Clear run-off area behind and beside the hoop

Notes
